

IOM ROMANIA: LIBRARY REFURBISHMENT

WITH SUPPORT FROM THE PEOPLE OF JAPAN

Libraries play a crucial role in their local communities by providing free access to knowledge, culture, and entertainment for all residents, at the same time serving as places of learning, connection, as well as exploration and promoting literacy, creativity, and social inclusion. Five libraries benefited from refurbishment through the project “**Assistance for Ukrainians affected by conflict and for third-country nationals living in Romania**”, made possible by the People of Japan:

1. Biblioteca Metropolitană București "Filia Marin Preda", located in Sector 1, Bucharest city (southern Romania)
2. Biblioteca Municipală Medgidia, located in Medgidia, Constanța County (eastern Romania)
3. Biblioteca Județeană George Barițiu, Branch No.4, located in Brașov, Brașov County (central Romania)
4. Biblioteca Comunală Botiz, located in Botiz, Satu Mare County (northwestern Romania)
5. Biblioteca Municipală Laurențiu Ulici, located in Sighetu Marmației, Maramureș County (northwestern Romania)
